*PROFORMA PM2.1 – Pricing Policy Statement*

Question	Response
Please provide a description of the regulated Retail Services currently offered, as specified on the Pricing Schedule.	Council provides a Community Wastewater Management System (CWMS) to all land within the township of Robe. A differential in the annual service charges of 25% between occupied and vacant land to which the CWMS is provided or made available will be maintained to reflect the difference between infrastructure establishment and effluent disposal costs for occupied and vacant land.
Please provide information on how the current pricing policies have been developed.	Council applied a nominal increase to set the CWMS 2015/16 fees. All Council CWMS schemes in South Australia have the same basic design, and in order for the schemes to be financially self sufficient on a long term basis, Councils need to model charges - to those to whom the schemes are provided or made available - on charges used by SA Water for its schemes. Further to this, Council will impose its annual service charges against assessments in accordance with the Code for Establishing and Applying Property Units as a Factor for the Imposition of Annual Service Charges for Community Wastewater Management Systems as permitted by Section 155 of the Local Government Act 1999 and Regulation 9A of the Local Government (General) Regulations 1999.
Please describe the rationale for the price movements between the 2015-16 and 2014-15.	Council considered a nominal \$1-\$2 increase from the previous financial year was warranted for the 2015/16 CWMS charges.
